

Top 10 reasons Video Professionals choose United Media's Multicam Software

1 Realtime Multi-camera Editing of up to 4 camera Sources

United Media's Multicam Software revolutionizes multi-camera editing with real-time tools for precise viewing, slicing and dicing of multiple camera sources. Multicam delivers the power and precision you need for any project using multiple camera sources, from wedding events, music videos, Bar/Bat Mitzvah, sporting events and corporate events. With Multicam, you call the shots in real-time.

3 Supports Adobe Premiere Pro

Multicam is one-of-a-kind software solution which is a plug-in to Adobe Premiere Pro. Multicam seamlessly integrates with Adobe Premiere Pro on the PC. After completing your multi-camera edit within Multicam, you export directly to Premiere Pro's timeline for adding realtime effects and graphics. Multicam exports to a single video track as supported in Premiere Pro.

5 Multicam Lets You Call the Shots

Multicam offers the best of both worlds: Edit multiple cameras live in realtime, but without the pressures of a realtime event. This is how it works, Multicam quickly delivers realtime playback of up to 4camera sources, you select "hot-keys" to cut live between the multiple cameras, as if simulating a live camera switch. Since you are working in non-linear, if you cut to the wrong camera angle you easily just re-do the edit. No pressure. It is as easy as Camera 1, 2, 3 and 4! With Multicam, you call the shots!

7 Two Great Solutions

Whether you are using 2camers, 3cameras or 4cameras, Multicam has a solution for you. Multicam is available in Multicam 2-camera or Multicam 4-camera solution. Even if you have never worked with multiple cameras before, you now can with ease using Multicam. Multicam supports Matrox RT.X100/Xtreme Pro, Canopus DVStorm2, and Standard Firewire OHCI cards.

9 Makes your NLE system Complete

Add Multicam to any NLE system using Adobe Premiere Pro and you will have all you need to edit multiple cameras with ease and flexibility.

2 Save Hours in Post-Production Time!

United Media's Multicam Software will save you tons of time and hours and hours in post-production. Sync, cut and edit! Never before has there been such an easy tool available to edit multiple cameras. Multicam lets you see and cut multiple cameras at one time, which in turn, saves you hours in post-production. Multicam is an investment that will pay for itself in the first project or two!

4 Create Better Videos using Multicam

Like no other, Multicam allows you to play, edit and view up to four camera sources simultaneously. Select the best camera shot by viewing multiple cameras at one time. Creative possibilities are endless and your finished project will never be better.

6 Takes all the Guess Work out of Multi-Camera Editing

Finally, a tool to edit multiple cameras fast, easy and with complete creativity. Whether you are editing 2 or 4 camera sources, Multicam allows you to view up to 4 independent camera sources at one time. No longer do you have to guess where the perfect shot is, you can view all camera sources at one time and cut to the perfect shot the first time – in Realtime.
